How to Download Docquity App

1. Download Docquity App on Playstore or App store
2. Select your language
3. Enter your mobile number without the first 0 (enter 917 instead of 0917)
4. Tap “Request OTP”. To verify the authenticity of your phone number you will receive a one-time-pin (OTP). Enter one-time-pin (OTP)
5. When the OTP has been entered, tap verify
6. On the next screen, tap Doctor to indicate that you will use Docquity as a physician.
7. Enter your first name, middle name, last name and email address and tap Next when finished.
8. Upload a picture of your PRC ID for verification. Tap Next
9. Select your main specialty.
10. Choose your interests.

Congratulations! You’ve successfully signed up for Docquity. You can now join pages for the different hospitals and societies you belong to, share and comment on posts, access webinars and other educational content, register for events and earn CME Points.
HOW TO DOWNLOAD DOCQUITY

Thank you for joining us at Docquity!

You're only a few steps away from joining one of the most expensive professional networks exclusively for doctors in the country.

To complete the registration process, you will need your mobile phone number, email address, and PRC number, as well as access to the Google Play Store (for Android users) or App Store (for iOS users).

Download the Docquity app

Android users
- Open the Play Store app on your phone
- Tap the search bar and search for "Docquity"
- Tap on the Docquity icon
- Click install and wait for the app to download
- Open the app

iOS users
- Open the App Store app on your phone
- Tap Search and search for "Docquity"
- Tap SET
- Open the app

Register for Docquity

1. Select your language you want to use the app in, then Tap Continue
2. Enter your mobile number without the first 0 (enter 917 instead of 0917), Select Philippines as country code.
3. Tap "Request OTP" to verify the authenticity of your phone number. You will receive a one-time-pin (OTP), Enter the OTP

HOW TO DOWNLOAD DOCQUITY

1. Enter your first name, middle name, last name and email address and tap Next when finished.

2. Upload a picture of your PRC ID for verification. Tap Next.

3. Indicate your main specialty. You can do this by scrolling through the choices until you find the one most suited to you, or by tapping Search Specialty and entering your specialty. Tap the specialty most suited to you.

4. In Docquity homepage, tap your profile picture on the upper left of your screen.

5. In My Association, tap Add.

6. Select your medical association.

Congratulations! You’ve successfully signed up for Docquity. Make sure to upload your PRC ID to verify your account and for the processing of your Online CPD Course certificate. Verification of account will take 24 hours.
Docquity Frequently Asked Questions

1. What is Docquity? - Docquity is a doctors’ continual learning network where doctors discuss clinical experiences, get certified CME/CPD units, watch live webinars and expert perspectives.

2. Where to download? - Docquity can be downloaded from the Apple App Store and Android Play Store.

4. How secure is the App? - Docquity adheres to Republic Act 10173 or the Data Privacy Act of 2012 and was approved by National Privacy Commission and HIPAA compliant.

5. Why do we need to upload our PRC ID? This is for verification purposes whether the person is a legitimate doctor. Docquity is an app intended exclusively for healthcare practitioners only.

6. Device availability of the App? The app can be downloaded on any smartphone and tablet and can also be viewed on a laptop.

7. Access via web? Yes, Docquity can be accessed through the Docquity website.

8. Can we do multiple App installation? The app can only be used on a single smartphone using your cellphone number. You can download Docquity on another phone by using another number.

9. How to access webinars, events, channels? Webinars and events can be accessed through the banners on the landing page, through posts on the news feed section or through the Explore tab at the bottom. Channels can also be accessed through posts in the news feed section and the Explore tab at the bottom.

10. How to access and update user’s personal profile? Just click your profile photo on the upper left hand section of the screen and then press Edit.

11. Bandwidth requirement? In recording a webinar, the speaker will need an upload speed of 5 to 10 mbps.
